

Executive office collection

Dignis

design: Piotr Kuchciński

The Dignis collection evokes associations with mid-century modern aesthetics. Dignis is a form which follows functionality, combining simplicity and elegance. A slim silhouette, straight, decisive lines inspired by geometry, elements with a clearly visible structure and contrasting colors are the hallmarks of the new collection. We find here minimalist desks and tables, as well as low-set chests of drawers and slim-leg wardrobes. The ultra-modern design of Dignis goes hand in hand with precision of workmanship and attention to detail. Balma's knowledge, experience and technology stand behind them.

COLLECTION FEATURES:

DESKTOP

- natural veneer, nano-laminate on plywood and thin compact laminate
- the edges of the tops in natural veneer and nano-laminate on plywood are milled

FRAME

- legs connected by a steel profile powder coated; separately adjustable
- under-table structure covered with, powder-coated metal cover

CABINET

- narrow edges of the cabinet body correspond to the thickness of the tops
- supported on characteristic powder coated steel legs
