Hej

Hej is the answer to the need for flexibility and comfort in any space. Inspired by the idea of an informal, friendly greeting, it encourages interaction. Hej is more than just furniture; it's a tool for shaping spaces that adapt to the users' needs. It creates open, welcoming environments where everyone can find a place—whether for work, relaxation, meetings, or simply taking a moment.

The visual lightness of this collection comes from its perfectly balanced proportions. Soft lines, fluid shapes, and gentle curves create a dialogue between form, function, and aesthetics. Its distinctive asymmetry breaks traditional patterns, giving the furniture a unique, dynamic character, while metal runner bases provide stability, subtly contrasting with the soft seating.

Hej the modular seating system allows for almost limitless configuration freedom — from bench height and width to the selection of backrests and armrests. This collection fits seamlessly into elegant lobbies, modern offices, and relaxation zones, optimizing spaces with the option to create smaller sets or linear arrangements with tables.

Key features

- **Modularity and customization** – the benches can be configured in numerous ways, adjusting height, the presence of backrests, armrests, or upholstered pads, making them a perfect fit for various spaces, from offices to public areas.
- **Visual lightness and elegance** – the collection combines minimalist design with subtle aesthetics, while metal runner bases ensure stability without overburdening the form, creating a light, modern piece of furniture.
- **Versatility of use** – designed to seamlessly fit into a wide range of environments, from corporate office lounges and waiting areas to public spaces such as galleries, hotels, or reception areas.
- **Ergonomics and comfort** – the upholstered seats, customizable backrests, and optional armrests are all designed with ergonomics in mind, offering a comfortable seating experience that promotes relaxation and well-being in both short and extended use cases.

Specifications
